

Mobile Technologies @ the Library

An Overview of Mobile Technologies and Their Impact on Your Library

A presentation by
Joe Murphy

(<http://connect.ala.org/user/44877>)

Science Librarian, Coordinator of Instruction
and Technology at Yale University Libraries

May 4, 2010

Clifton Park-Halfmoon Public Library

475 Moe Road, Clifton Park, NY 12065

In this all-day workshop nationally known speaker Joe Murphy will present an overview of mobile technologies and their impacts. The overview will include an introduction to the major mobile technologies and an interactive discussion of why libraries of all types are interested in mobile technology and its implications. Joe says, "We will discuss at length the ways that public libraries, school libraries, academic libraries, and special libraries individually and together have begun to engage mobile technologies and what lessons we have learned from these experiences."

The afternoon session will have a detail oriented and hands-on segment where the audience will explore exactly how our libraries can engage the top mobile technologies. Topics covered will include how public libraries can leverage mobile technologies in services for adults and children, how school libraries can navigate their unique challenges, how special librarians can enhance their roles with mobile technologies, and how academic libraries can design services and collections to enhance mobile access.

Registration and coffee begins at 9:00 am (please note that the library does not open until 9:00 am). The program will run from 9:30 am – 4:15 pm.

Please use the attached/following Registration Form to register for the workshop. Send the form with your check made out to CDLC to: CDLC, 28 Essex Street, Albany, NY 12206. **Registration deadline is April 23, 2010.**

Directions to the Clifton Park-Halfmoon Public Library can be found at:
